#### Press Release

Adhering to the business development principle of "continued capability and services improvement, and innovative development", China Merchants Land has been focusing on the development of property projects in existing core premium cities across the Guangdong-Hong Kong-Macao Greater Bay Area, by leveraging on the abundant inventory resources of China Merchants Group Limited and China Merchants Shekou Industrial Zone Holdings Co., Ltd. ("CMSK"). The saleable gross floor area of properties which had not been sold or presold as at 31 December 2019 was 5,954,429 sq m. With respect to intensive development of existing cities, priority is given to cities such as provincial capital cities that have a net inflow of population.

Basing on the judgment of the market environment and demand, the Group completed the re-amended and restated non-competition deed (the "Non-competition Deed") entered with CMSK during the Year. Pursuant to the Non-competition Deed, China Merchants Land will be able to carry out REIT management business in all cities across China. REITs are distinctive products regulated by the Hong Kong regulatory bodies and are well recognized by global investors. The REIT management business presents a unique opportunity for China Merchants Land to become a leading REIT management service provider.

The Group will implement its business plans effectively, by leveraging CMSK's competitive edge in capital resources to expedite planning for its new businesses, so that the Group could effectively grasp market opportunities arising from the shift from creation of new markets to intensive development of existing markets, as well as make flexible response to market changes.

Looking into 2020, under the influence of risks arising from various factors such as the novel coronavirus outbreak, political and economy conditions, the global economy is expected to slow down in the first half of the year, but may bottom-out in the second half of the year. The growth rate for the year may slightly decline when comparing to that of 2019. The global economy is characterised by its high level of financialisation, high liquidity, low growth rate, low inflation rate and huge bubble. These coupled with the uncertainty on whether the trade tariff between the U.S. and the PRC will be cancelled or increased will expose China's economy to more risks and challenges; however, in general, it will take a "cautious" outlook.

For the real estate industry in the PRC, as the overarching themes of "houses are for living not for speculation" and "carrying out city-specific policies" in the past years will continue to be followed, it is expected that, in 2020, the top priority of the Ministry of Housing and Urban-Rural Development of the PRC is to stabilise land prices, housing prices and market expectations, improve housing security system across cities and towns, and step up efforts in addressing the housing problems of poor families in urban areas; plan and develop leased residential properties to solve the housing problems of new citizens; and enhance the quality of cities and living environment to build

"beautiful cities" and serve cities as "living organism", thereby facilitating quality development of cities. The Group will continue to adhere to the business development principle of "continued capability and services improvement, and innovative development". The Group will take advantage of the abundant inventory resources of China Merchants Group and CMSK and actively explore the asset management market and grasp market investment opportunities.
